Smoking cessation advice

Dear Mr Saint, Smoking can lead to strokes, cancer, heart and lung disease. We strongly advise quitting. The best way to stop is with a combination of medication and specialist support. You can try the NHS Quit Smoking app, or for more information visit: <https://www.smokefreehampshire.co.uk/> Rowlands Castle Surgery NHS app message sent on 05/02/2025 12:21:07

SMILEY, Elizabeth (Dr)
Rowlands Castle Surgery

Comments:

History

Intorudction meeting as new to practice and note on there about care needed when granting access.
 Life has been hard with knocks and he finds it hard to trust or believe in an 'industry' like mental health services etc. which is understadable.
 He has been given a lot of medications in the past which he has managed to wean himself off.
 He has a dog, called Toby, who he walks.
 He has had some neighbour disputes which is affecting his well being and mood.
 He doesn't want anything from Drs except abx.
 Offered referral to social prescribers, not sure he wants this atm, but invited to let me know if this is something he'd like to persue.
 Explained briefly that I don't operate with a medical model and am a reluctant presriber.
 Knows of the recovery hub, but feels this is part of the 'industry'.
 Wants someone to treat him with kindness and compassion and to understand him, which is not unreasonable.
 Let him know we are here when he wants or feels he needs us, for anything.
 Denies suicial thoughts at the moment, Toby is protective.

Clinical history and observations, Appt made to follow up on mental health concerns raised by police report He took up offer of F2F review. Wanted to use this chance to say he doesn't trust our establishment or me as a doctor 1. referred to SPLW and never heard 2. Referred for colonoscopy and never heard back 3. mentioned in first consult when we met in summer 2023 that he thought his symptoms were due to COVID vaccination and he felt dismissed by myself Wanted to hand over letter in person and have it filed with no action, but so that it was there for when he wants to seek legal action.

Clinical examination, Deputy PM brought into the room to go through this.

Plan, Breakdown in trust with me. Apology re SPLW - was referred. Apology if was never seen. If we were aware could chase up. Declined referral again at this point. Colonoscopy - plan is for colorectal OPD. Waiting list is 6-18 months. In the timeframe where still await OPD. If wanted we could contact booking centre to ask when OPD is - message to secs. Dismissive of COVID Vaccination concerns - I apologised I cannot recall this. His perception is just that - good to raise it and clarified a few times what action he wants to take. He simply wants his letter on file. If doesn't trust the practice == neighbour in conflict with he says works at the practice - part of his trust issue. Advised free to register with another GP practice - Rowlands, Southbourne or Havant. He will look into doing this.
